

## Service Area Eligibility

You may have already heard about academic, physical and age eligibility requirements to play high school sports, but have you heard about the School's Service Area Eligibility Rules? According to the GHSA Constitution and Bylaws of 2013-14 (1.10 & 1.6), in order for student athletes to establish and maintain eligibility to participate in interscholastic varsity programs, they must maintain residences in the school's service area. If a student athlete and his/her family changes residences, the GHSA requires the move to be a "bona fide" move. Coaches will share more details during pre-season parent meetings. Further details can be obtained on the GHSA website.
