

Troup County Families:

Thank you for taking the time and effort to obtain these supplemental educational materials. We recognize that these materials will not replace classroom instruction; however, during these unusual and unprecedented circumstances, Troup County Schools are committed to providing the best possible academic opportunities for our students.

Within the packet, you will find documents focusing on core academic subjects. Each resource was gathered using state guidance material and other resources which support the Georgia Standards of Excellence. Our intention is to enhance student understanding of curriculum already covered in class. The packet is not intended to negatively impact student grades, regardless of how he or she may perform on the assignments. Instead, we simply hope to reinforce and sustain previously acquired content. We ask that students return the packet to their teachers upon return to school.

In addition to the packet, please refer to the list of online resources below for academic remediation and enrichment.

Grades K-5:

<https://www.khanacademy.org/> (nonprofit organization with free educational resources)
